SHELTON ENROLLMENT UP

Enrollment is up over 6% at Shelton State Community College, according to Shelton president Leo Sumner. "Our enrollment is up over 1981 Fall quarter figures and we expect a slow steady growth in the years to come. We are pleased that the community has faith in the two-year college system in West Alabama," Sumner said.

Enrollment for Fall quarter at Shelton State Community College totals 3317 students for Shelton State Technical Division and the Junior College. Total enrollment for the two divisions in the fall of 1981 was 3226 students. Enrollment at the junior college this fall is 2350 students, up from 2313 last year. Figures from the technical division show 967 students are currently enrolled as opposed to 913 students in the fall of 1981.
